## Maintaining your InLife Premier status!

The membership to the program has an end-date, the duration of which depends on the following:

- ✓ Qualification to the premium requirement during the time of policy issue date
- ✓ Status of policy
- ✓ Paying period of the qualifying policy(ies)

In instances where an InLife Premier Policyholder has a 5-pay policy, you are entitled to a 5-year InLife Premier Policyholder status provided:

- ✓ The policy is on an active-premium payment basis
- ✓ The annualized premium has met the premium requirement of the program during the 5-year period

InLife Premier members with multiple policies should ensure that all qualifying policies are active and premium paying in order to continue enjoying their privileges.

Once a policy is fully paid and total annualized premiums fall below Php 150,000.00, membership to the program expires. However, you may still qualify as an InLife Premier Policyholder by purchasing a new policy to meet the Php 150,000 minimum annualized premium requirement.
